BUILDING PERMIT VALUES INCREASED 5.5 PERCENT IN MARCH

NEW YORK, June 30--The value of building permits in the nation's 200 largest cities increased 5.5 percent to $4.7 billion in March 1987 from $4.4 billion in March 1986, according to The Dun & Bradstreet Corporation.

The largest gain occurred in Cleveland, where a multi-million dollar housing project helped push the value of permits up 1,437 percent to $50.9 million in March from $3.3 million in the same month last year. Other significant increases were reported in Alexandria, Va., where housing projects and commercial construction accounted for a 747.9 percent increase to $39.1 million from $4.6 million last year; Newark, N.J., where ongoing projects at the Marriott Hotel, Gateway Plaza, and New Jersey Bell Telephone drove the value of building permits up 652.0 percent to $14.7 million from $2.0 million in March 1986.

In Torrance, Calif., the value of building permits rose 549.6 percent in March to $73.6 million from $11.3 million in the same month last year. A spokesman for the Building Inspector's Office said the

-MORE-

increase reflected the rush to beat the provisions of a new state law which will increase property tax assessments for new construction. Understandably, permit values also rose significantly in several other California cities, including Garden Grove, up 390.4 percent to $10.2 million from $2.1 million; Pasadena, up 374.2 percent to $16.8 million from $3.5 million; and Orange, up 326.1 percent to $31.0 million from $7.3 million.

The largest total dollar value of permits was recorded in New York City at $314.3 million, a 70.1 percent increase over the year-ago level. Los Angeles was second at $240.5 million, a 28.2 percent decline from March 1986; followed by San Diego, at $229.3 million, a 38.1 percent increase over last year.

For the first three months of 1987, building permit values declined 2.4 percent to $12.2 billion from $12.5 billion in the same time period last year.

Building permit values are issued by The Dun & Bradstreet Corporation on a monthly basis. Data are compiled for the nation's 202 largest cities, as defined by populations contained within city limits. These values exclude permits issued for activities such as billboard and swimming pool construction.

The Dun & Bradstreet Corporation is the world's largest marketer of business information and services, with worldwide revenue of $3.1 billion in 1986.
